19. A(n) _____ is a person by whom the data message purports to have been sent or generated.
20. A person shall be criminally punished only when the act done by such person is provided to be an _____ and the punishment is defined by the law.

Part C: Written Answer Questions (20 marks)

Question 1

Mr. Somchai created a computer virus program and installed it on multiple USB drives. He then distributed these USB drives to random people at a shopping mall, knowing that when plugged in, the virus would steal their personal data stored in their computers. Ten people who received the USB drives plugged them into their computers, resulting in their personal data being stolen. Using relevant legal principles, analyze whether Mr. Somchai committed any offence under the Thai Computer-related Crime Act.

Question 2

Mr. Bank, a skilled hacker, broke into Banana Corporation's headquarters late at night by picking the lock of their server room door. Once inside, he used his laptop to hack into their main server, which was protected by password authentication and firewall systems. He successfully accessed confidential company data. Using relevant legal principles, analyze Mr. Bank's criminal liability under Thai law.

Question 3

Mr. Decha is employed as an IT administrator at ABC Company Limited. During work hours, he used the company's computer system to send spam emails containing false advertisements to thousands of people. The company's management was unaware of his actions. Analyze the potential legal liabilities of both Mr. Decha and ABC Company Limited under relevant Thai laws.

Question 4

A university professor made copies of copyrighted textbooks and distributed them to students in his class without charging any fee. The professor claimed this was for educational purposes. Analyze whether this action constitutes copyright infringement under Thai Copyright Act. Support your answer with relevant legal principles.
